Dear Dr An,

I am writing to invite you, as a senior researcher, to visit the School of Chemistry and Chemical Engineering, the University of Surrey, from late July 2025 for a period of six months. I hope your visit to our school will strengthen the collaborative research and PhD training between China Agricultural University and the University of Surrey on modelling and optimisation of future sustainable aquaponics and aquaculture systems. Please note that this invitation is subject to the usual approval process for visiting scholars at the University of Surrey.

I understand all your travel and living expenses for your proposed exchange visit will be fully covered by the China Scholarship Council (CSC).

If there is anything you require assistance, please do not hesitate to contact me.

Yours sincerely,

Professor Tao Chen
